# CONCIERGE TERMINAL

## AM-02

**INTERCONNECTED, EXTENSIVE CONTROL** The AM02 is a desktop Concierge terminal designed for communication within our intercom ecosystem. The concierge terminal communicates directly with the internal monitors and outdoor panels through SIP 2.0 protocol. It provides users with the ability to grant access, as well as locate users through the address book directory via the large 10" LCD touchscreen. This unit also can connect to a maximum of 1000 IP cameras for remote viewing along with capturing photos and videos of visitors.

Camera
