## New Releases:

### GCS Dealer Essential Pricebook *for Feb 2019*

Dealers can log in to see our updated Pricebook as of Feb 2019:  
<http://galaxysys.com/login-bulletin>

If there are problems logging in, they can request a log on. Wireless lock and video pricebooks are coming soon!

### Software Version 11.1.0.2 *Coming later in March 2019*

#### Highlights

**idProducer** – a new web-based badging software option that will be used cross platform by both System Galaxy and Cloud Concierge.

#### Hanwah wave video integration

**Single Sign-on Capability** - Now you can use your network login to sign on to System Galaxy. When the user attempts to log in, they enter their windows/domain username and password. The system validates against the Windows domain to authenticate the login. The password is not saved by System Galaxy.

**Galaxy has increased the allowable Loop/Clusters to 65535 and Controllers to 65533 per Loop/Cluster** - In previous versions, the maximum number of Loop/Clusters in a system was 254 and the maximum number of controllers in a Loop/Cluster was 254.

Because of these changes, there are several new rules to be aware of. Dealers can log in and see all the features and upgrade recommendations: <http://galaxysys.com/techsupport-System-Galaxy-Current-SG-v1102-and-earlier?id=4>
