COMMERCIAL SAFETY

ACCESS EXCELLENCE

Protect Your Firm, Focus on Your Business.

Galaxy Control Systems is a leader in access control security with an emphasis on providing superior security protection for Commercial facilities world wide. Building owners have put their trust in Galaxy for over 35 years. Our systems are installed in over 50 countries including local, state, and federal governments.

Why Galaxy Control Systems

Galaxy solutions include System Galaxy Software, which enables badging and approval of all employees and visitors to institutions. Staff can view who is on site and control authorized access to specific areas. Staff can also set "watch lists" including information on ex-employees or other prohibited visitors with instant notification.
